

Rapport de Surveillance Nocturne

MedGemma Sentinel - The Scribe

Patient: Jean Camara

ID: DEMO001

Chambre: 500

Date: 23/02/2026

Resume Executif

Nuit relativement calme. Score de sommeil: 86.0/100.

Evolution Inter-Cycles (2 sessions)

Synthese Evolution Inter-Cycles

Comparaison: Session 1 → Session 2

- **SpO2 min:** 94.0% → 95.0% (↑ 1.0%)
- **FC max:** 110.0 → 119.0 bpm (↑ 9.0)
- **T max:** 39.4°C → 37.5°C (↓ 1.9°C)
- **Alertes:** 7 → 3 (↓ 4)
- **Nouveaux symptomes:** Douleur thoracique
- **Symptomes resolus:** Syncope

Tendance globale: **A SURVEILLER** — Quelques parametres necessitent attention.

Points de Vigilance

- Tachycardie persistante (FC >110): bilan cardiaque a envisager.
- Nouveaux symptomes apparus: evaluation clinique recommandee.

Score Global	86/100
Qualité	Excellente
Interruptions	3

Recommandations

- * Surveillance continue de la saturation (SpO2 < 92%)
- * ECG de controle recommande - anomalies FC detectees
- * Verifier hydratation et temperature
- * Reevaluer les constantes a la prise de poste
